Appropriation titles in italics are classified as "war activities."

 $^{^2}$ Includes \$1,200,000 for 1945 and \$558,680 for 1944 transferred from "Foreign trade statistics, Bureau of the Census."

Because of possible material changes in war conditions, the detailed schedule of obligations will be submitted to the Congress as a part of a supplementary budget in the spring of 1945. Consequently the estimated expenditures are tentative.

⁴ Includes \$4,466 in 1946 and \$3,423 in 1945 for "Cost of handling penalty mail."

14 \$32,300,000 of this appropriation made available for "Conservation and use of agricultural land resources, Department of Agriculture."

15 Appropriations for 1945 and estimates for 1946 exclude \$4,161,496 and \$10,133,000 respectively, for public works, included in General Public Works Program. (See pp. 669-670.)

EXPLANATORY STATEMENT

GENERAL STATEMENT

The Department of Agriculture, which includes the War Food Administration, is charged with the responsibility for carrying on activities and programs concerned with agricultural research, credit, production, processing, and distribution in the United States and its possessions, and for the relationship of such activities and programs to those of other countries.

In order to assure the greatest possible contribution of agriculture to winning the war, those functions of the Federal Government most directly related to food production and distribution were, beginning in March 1943,

placed under the direction of a War Food Administrator, appointed by and responsible to the President.

The need for food production will not be lessened in the immediate future. We must continue to be prepared to meet the needs of our armed forces, our civilian population, and our Allies, as well as the requirements of wartorn countries. Some shifts in the pattern of production may be needed in line with changing demand situations, but the total requirements will continue to be great.

The direct appropriation estimates for the Department of Agriculture for 1946 show a decrease of 26 percent below 1945. Including reappropriations, there is a reduction of 12 percent in the amount of funds available for 1946 as compared to 1945. An increase of about 200 percent in authority to borrow from Reconstruction Finance Corporation is included for self-liquidating loans.

ADMINISTRATION AND SERVICE

This broad classification includes the Offices of the Secretary and the War Food Administrator and the staff These offices, which provide essential services for the Department as a whole, include the Offices of Solicitor, Information, Personnel, Budget and Finance, Plant and Operations, and the Library. Included also are the Bureau of Agricultural Economics, the central economic research and statistical agency of the Department of the Office of Economics. ment, and the Office of Foreign Agricultural Relations.

There are indications that, by the beginning of fiscal year 1946, possibly some of the administrative activities presently carried on can be curtailed. Planning for postwar readjustment problems will impose an added burden at this level, and in the field of foreign agricultural relations more information will be needed to serve as a basis for working out international policies and cooperation. The anticipated expansion in our foreign trade has a direct bearing on the future of our agricultural economy. Immediate problems are emerging as the war progresses and additional countries are liberated. The net effect of these considerations on the 1946 estimates is a reduction for administration and service in the Department of onehalf percent as compared with 1945.

AGRICULTURAL RESEARCH, DISEASE AND INSECT CONTROL

Included in this classification are the agencies comprising the Agricultural Research Administration, the research activities of the Forest Service and the Soil Conservation Service, and the white pine blister rust control program.

An increase of 6 percent in the amount for agricultural research is recommended for 1946. The largest increase among the research items is \$546,292, for increased payments to States for agricultural experiment stations.

The balance of the increase for research, approximately \$1,000,000, is distributed among 15 items of 8 bureaus and agencies. The need for research increases as the aims of our living standards are raised, as our civilization becomes more complex, and as new problems are presented by newly introduced diseases and insects. Further need for such research is illustrated by the results of a few of the Department's projects: Developing methods for expanding the production of lifesaving penicillin; developing the insecticide DDT, which promises to revolutionize pest control and eradication measures; and research on the use of wood and wood products, especially valuable during the war in aircraft production, shipbuilding, and packaging of overseas military shipments.

For the control of insect pests and plant diseases, an

increase of 13 percent in funds for 1946 is provided for in the estimates. More than three-fourths of this increase is for the control of white pine blister rust, a destructive disease which menaces our five-needled pine forests.

PRODUCTION, MARKETING, AND CREDIT

Grouped under this head are the Farm Credit Administration, Farm Security Administration, Rural Electrification Administration, Agricultural Adjustment Agency, Soil Conservation Service, Extension Service, Office of Labor, Office of Production, Office of Distribution, Commodity Credit Corporation, and the Emergency Rubber

Project. Each of these agencies has played a vital part in the urgent wartime job of getting necessary food and fiber produced and distributed equitably among our armed forces, our civilian population, and our allies. The high level of production reached during the war years could not have been achieved without the assistance and service available to farmers through the agricultural conservation agencies.

While the estimates for 1946 reflect a proposed reduction of approximately 32 percent in direct appropriations as compared to 1945, due to reappropriations and transfers, the availability of funds for administering the various production, marketing, and credit functions is about 14

percent below 1945.

The estimates provide for an expanded loan program under the Rural Electrification Administration through increases in authorized borrowing power from the Reconstruction Finance Corporation. An increase from \$25,-000,000 to \$150,000,000 is provided for loans for rural electrification so that this program, which has been necessarily curtailed by the war, may be resumed at an accelerated pace if materials and labor become available.

An increase in the loan authorization for Farm Security Administration from \$15,000,000 to \$50,000,000 is provided for farm tenant loans, and from \$67,500,000 to \$125,000,000 is provided for rural rehabilitation loans. These increases are provided largely to meet the anticipated demand for agricultural credit from returning

veterans.

When the reduction in military requirements and lend-lease demands for farm products occurs, it will create a number of problems in production, distribution, and price support. The Congress has recognized that farmers must be protected against a possible collapse of farm prices immediately following the war. To meet price-support requirements during and after the war, a proposed increase of \$2,000,000,000 in the borrowing power of Commodity Credit Corporation has already been recommended to the Congress.

The 1946 Budget estimates for the Commodity Credit Corporation and the Farm Credit Administration do not provide for any substantial change in the administrative requirements for the credit and loan programs of these agencies. Should adjustments in these programs be required because of changing conditions, provision there-

for will be considered at the appropriate time.

PUBLIC LAND AND FOREST MANAGEMENT

Under this head are grouped the activities and functions of the Forest Service (excluding research items), Forest Roads and Trails, Land Utilization and Retirement of Submarginal Land, and Payments to States and school funds of certain percentages of receipts from national forest and land-utilization projects. The national forests have played an important part in our war production program. The cut of national forest timber reached an all-time high of 3,333,000,000 board feet in fiscal year 1944, with a total value of \$14,362,671, and is still increasing.

Budget estimates for 1946 provide for increased expenditures under this head, as compared to 1945, of approximately 27 percent. Over 60 percent of this increase is for forest highway construction which was authorized in 1942, but for which funds heretofore have not been appropriated. The balance of the increase is chiefly for forest fire cooperation, timber sales, and the mapping of

national forests.

Cooperative Agricultural Extension Work-

For the purpose of paying the expenses of cooperative agricultural extension work and the necessary printing and distributing of information in connection with same, the Act of May 8, 1914 (7 U. S. C. 341–348), permanently appropriated \$480,000 for each year, \$10,000 of which is paid annually to each State which has by action of its legislature assented to the provisions of the Act. It also appropriated an additional sum of \$600,000 for the fiscal year following that in which the foregoing appropriation first became available, and for each year thereafter for seven a sum exceeding by \$500,000 the sum appropriated for each preceding year, and for each year thereafter there is permanently appropriated the sum of \$4,100,000 in addition to the sum of \$480,000. The additional sums are allotted annually to each State by the Secretary and paid in the proportion which the rural population of each State bears to the rural population of all the States as determined by the next preceding Federal census, but no payment out of the additional appropriations can be made in any year to any State until an equal sum has been appropriated for that year by the legislature of such State, or provided by State, county, college, local authority, or individual contributions from within the State, for the maintenance of cooperative agricultural extension work. On May 16, 1928 (7 U. S. C. 386–386b), this appropriation was amended to include a permanent allotment to the Territory of Hawaii of \$10,000 plus an additional sum of \$12,935.43, subject to the same terms and conditions as the original act. The permanent annual appropriation was thereby increased to \$4,602,935.43. Under the 1930 census the amount of money available to Hawaii increased by \$3,160, thereby automatically decreasing the total amount available under the original Smith-Lever Act by this amount. The Act of March 4, 1931 (7 U. S. C. 386d–386f) provides that the Smith-Lever Act and Acts supplementary thereto be increased by \$1,000 annually, or such part thereof as may be ne

FARM AND OTHER PRIVATE FORESTRY COOPERATION

Farm and Other Private Forestry Cooperation, Department of Agriculture-

To enable the Secretary (1) to carry into effect, through such agencies of the Department as he may designate, the provisions of the Cooperative Farm Forestry Act, approved May 18, 1937 (16 U. S. C. 568b), (not to exceed \$532,038 \$495,957) and the provisions of sections 4 (not to exceed \$83,700) and 5 (not to exceed \$65,728 \$65,100), of the Act entitled "An Act to provide for the protection of forest lands, for the reforestation of denuded areas, for the extension of national forests, and for other purposes, in order to promote the continuous production of timber on lands chiefly suitable therefor", approved June 7, 1924 (16 U. S. C. 567-568), and Acts supplementary thereto; and (2) through the Forest Service to cooperate with and advise timberland owners and associations, woodusing industries or other appropriate agencies in the application of forest management principles to federally owned lands leased to States and to private forest lands, so as to attain sustained-yield management, the conservation of the timber resources, the productivity of forest lands, and the stabilization of employment and economic continuance of forest industries, not to exceed \$100,000 \$87,743; in all, not to exceed \$751,466 \$732,500, of which not to exceed \$50,958 \$39,870 may be expended for personal services in the District of Columbia; the purchase of reference books and technical journals; not to exceed \$30,000 for the construction, alteration, or purchase of necessary buildings, and other improvements: Provided, That no part of this appropriation which is available for carrying out the Cooperative Farm Forestry Act and sections 4 and 5 of the Act approved June 7, 1924, shall be expended in any State or Territory unless the State or Territory, or local subdivision thereof, or individuals, or associations contribute a sum equal to that to be allotted therefrom by the Government or make contributions other than money deemed by the Secretary to be the value equivalent thereof: Provided further, That any part of this appropriation a

Total, Forest Service, annual appropriations, general account: Estimate 1946, \$28,228,099 Appropriated 1945, \$28,476,260

Permanent appropriations, special accounts:

Payments to States and Territories From the National Forests

Twenty-five percent of all money received from each forest reserve during any fiscal year is paid at the end thereof by the Secretary of the Treasury to the State or Territory in which the reserve is situated, to be expended as the State or Territorial legislature may prescribe for the benefit of the public schools and public roads of the county or counties in which the forest reserve is situated. When any forest reserve is in more than one State or Territory, or county, the distributive share to each from the proceeds of the reserve is proportional to its area therein (16 U. S. C. 500).

Estimate 1946, \$3,894,000

Appropriated 1945, \$2,475,655 Revised 1945, \$3,894,000

11 Grants, subsidies, and contributions: Obligations—1946, \$3,894,000; 1945, \$3,894,-000; 1944, \$2,608,870.

Payments to School Funds, Arizona and New Mexico, National Forests Fund—

At the close of each fiscal year there is paid by the Secretary of the Treasury to each of these two States, as income for its commonschool fund, an amount equivalent to such proportion of the gross proceeds of all the national forests within the State as the area of lands granted to the State for school purposes within these forest reserves may bear to the total area of all national forests within these States ([36 Stat. 561] Act of June 20, 1910, Public Law 219).

Estimate 1946, \$38,476

Appropriated 1945, \$26,888 Revised 1945, \$38,476

11 Grants, subsidies, and contributions: Obligations—1946, \$38,476; 1945, \$38,476; 1944, \$26,888.

Roads and Trails for States, National Forests Fund-

An additional 10 percent of all moneys received from the national forests during each fiscal year is available at the end thereof, to be expended by the Secretary for the construction and maintenance of roads and trails within the national forests in the States from which such proceeds are derived (16 U.S. C. 501).

Estimate 1946, \$1,557,000

Cooperative Work, Forest Service-

All moneys received as contributions toward cooperative work in forest investigations, or the protection and improvement of the national forests, including deposits received from timber purchases to cover the cost to the United States of disposing of brush and other debris resulting from cutting operations in sales of national forest timber, are covered into the Treasury and constitute a special fund, which is appropriated and made available until expended, as the Secretary may direct, for the payment of the expenses of the investigations, protection or improvements by the Forest Service, and for refunds to the contributors of amounts paid in by them in excess of their share of the cost of the investigations, protection, or improvements (16 U. S. C. 490, 498, 572, 581; 31 U. S. C. 7258).

EMERGENCY RUBBER PROJECT

Emergency Rubber Project, Department of Agriculture-

For all expenses necessary to enable the Secretary to carry into effect the Act of March 5, 1942, as amended (7 U. S. C. 171–175), including personal services in the District of Columbia and elsewhere; printing and binding without regard to section 11 of the Act of March 1, 1919 (44 U. S. C. 111); purchase of books of reference and periodicals; [purchase of passenger-carrying vehicles;] erection of necessary buildings; procurement of medical supplies or services for emergency use in the field; and the acceptance of donations of land and rubber-bearing plants, and furnishing to employees daily transportation between points of assembly and work projects, there is hereby continued available, in accordance with section 3 of said Act of March 5, 1942, not to exceed [\$3,020,985] \$4,436,662 of the unobligated balances of appropriations made under this head for the fiscal years 1942 and 1943, which balances shall be merged with the appropriation made under this head in the Department of Agriculture Appropriation Act, 1944: Provided, That any proceeds from the sales of guayule, rubber processed from guayule, or other rubber-bearing plants, or from other sales, rentals, and fees resulting from operations under such Act of March 5, 1942, as amended, shall be covered into the Treasury as miscellaneous receipts (Act of June 28, 1944, Public Law 367).

Payments for Agricultural Adjustment—

Note.—An appropriation of \$296,185,000 was provided by the act of Feb. 11, 1936, Public Law 440, to enable the Secretary to meet all obligations and commitments (including salaries and administrative expenses) theretofore incurred under the provisions of the Agricultural Adjustment Act, as amended, together with a sum not exceeding \$700,000, equal in amount to the unexpended balance of the funds established under sugar processing tax collections and allotted by the President under authority in section 15 (f) of the Agricultural Adjustment Act, as amended, to be spent for the benefit of agriculture in Puerto Rico and Hawaii. These sums remain available until expended. Public Law 589, 77th Congress, approved June 5, 1942, provides that no claim shall be considered or paid from this appropriation unless presented to the Secretary within 120 calendar days from the date of approval thereof, and that the unobligated balance remaining in this appropriation 180 calendar days after the date of approval of the act of June 5, 1942, shall be covered into the surplus fund of the Treasury, except that not to exceed \$25,000 of such unobligated balance shall remain available thereafter for not more than 1 calendar year for administrative expenses.

Moisture Content and Grade Determinations for Commodity Credit Corporation, Agricultural Adjustment Agency—

Note.—This fund is advanced by the Commodity Credit Corporation for paying obligations incurred by the Agricultural Adjustment Agency and local agricultural conservation associations in inspecting, sampling, grading, sealing, testing, and other work incident to the storing of agricultural commodities and making loans thereon under the commodity loan programs. The Agricultural Adjustment Agency has in its field offices in the various States equipment and facilities for making the moisture tests which are final factors in determining grades, and therefore loan eligibility of the harvested crop offered as collateral security for loans.

Payments to Counties From Submarginal Land Program, Farm Tenant Act—

Twenty-five percent of the net revenues received each calendar year from the use of lands held by the Secretary under title III of the Farm Tenant Act, approved July 22, 1937 (7 U. S. C. 1000–1013), is paid to the counties in which the land is located. Such payments to counties are made on the condition that they are used for school or road purposes, or both. When any project is located in more than one county, the distributive share to each from the proceeds of the land is proportional to its area therein.

FEDERAL SURPLUS COMMODITIES CORPORATION

Note.—This Corporation was organized under the laws of Delaware as a nonprofit, nonstock, membership corporation and has been continued as an agency of the United States, under the direction of the Secretary, until June 30, 1945 (Public Law 634, 77th Cong.) for the purpose of facilitating Federal programs for the disposition of surplus removal projects. The functions of this Corporation which were carried out with funds transferred to it pursuant to sec. 32 of the act approved Aug. 24, 1935 (7 U. S. C. 612c), as amended, were assumed by the Surplus Marketing Administration June 30, 1940, pursuant to Reorganization Plan No. III. The President by Executive Order 9069, issued Feb. 23, 1942, made effective the consolidation of the Surplus Marketing Administration, together with the Federal Surplus Commodities Corporation as an agency of the Department, into the Agricultural Marketing Administration. Pursuant to Executive Order 9280, dated Dec. 5, 1942, the Agricultural Marketing Administration. On Jan. 21, 1944, the War Food Administrator redesignated the Food Distribution Administration as the Office of Distribution.

Special Deposit Account, Federal Surplus Commodities Corporation (Northeastern Timber Salvage Administration), Funds Loaned by Disaster Loan Corporation—

Note.—This schedule reflects the administrative and program expenses of the Northeastern Timber Salvage Administration, an organization within the Federal Surplus Commodities Corporation, engaged in salvaging timber in New England damaged by the hurricane. These activities are conducted and financed pursuant to a loan agreement between the Corporation and the Disaster Loan Corporation. Responsibility for the technical operation of this program has been delegated to the Forest Service.

Expenses and Refunds, Inspection and Grading of Farm Products, Office of Distribution—

Under authority of the Agricultural Appropriation Act, the Secretary provides an inspection and grading service for farm products upon the application of an interested party. This service is supported in part by the appropriation "Market inspection of farm products", and in part by fees charged for the service. These fees are covered into the Treasurý as a special trust fund and are appropriated and made available for the payment of refunds and expenses in connection with the work provided for under cooperative agreements (5 U. S. C. 511, 512; 7 U. S. C. 581–589; Act of June 28, 1944, Public Law 367).

Estimate 1946, \$4,400,000

FARM SECURITY ADMINISTRATION

LOANS, GRANTS, AND RURAL REHABILITATION

Loans, Grants, and Rural Rehabilitation, Department of Agriculture

To enable the Secretary through the War Food Administration to continue to provide assistance through rural rehabilitation and grants to needy farmers in the United States, its Territories, and possessions, including (1) farm debt adjustment service, and making and servicing of loans and grants under this and prior laws, (2) ing and servicing of loans and grants under this and prior laws, (2) loans to needy individual farmers, \[\begin{align*} \begin{align*} (2) \\ \ext{grants}, \begin{align*} \begin{align*} \begin{align*} \alpha \\ \text{div} \end{align*} \]

making and servicing of loans and grants under this and prior laws, (4) farm debt adjustment service, (5) liquidation as expeditiously as possible of Federal rural rehabilitation projects under the supervision of the War Food Administration, \[\begin{align*} \begin{align*} \begin{align*} \begin{align*} \begin{align*} \begin{align*} \ext{mod} \\ \ext{comparisons} \\ \ext{od} \\ \ext{doministration} \\ \ext{grants} \\ \ext{grants} \\ \ext{doministration} \\ \ext{grants} \\ \ext{grants} \\ \ext{doministration} \\ \ext{grants} \\ \ext{doministration} \\ sums shall be also available for necessary administrative expenses incident to the foregoing, including personal services in the District of Columbia and elsewhere; not to exceed \$57,000 for [compensation of experts without regard to the Classification Act of 1923, as amended employment pursuant to the second sentence of section 706 (a) of the Act of September 21, 1944 (Public Law 425); purchase of lawbooks, books of reference, periodicals, and not to exceed \$1,000 for newspapers; [purchase, operation, and maintenance of motorpropelled passenger-carrying vehicles; and printing and binding: Provided, That the War Food Administrator shall transmit to the Congress semiannually a progress report with respect to the liquida-tion of Federal rural rehabilitation projects, under his supervision, showing by name and by States all dispositions of such projects, or parts thereof, together with the amounts of Federal funds expended in the process of liquidation, and any losses incurred in the use of such funds.

In making any grant payments under this Act, the Secretary is authorized to require with respect to such payments the performauthorized to require with respect to such payments the performance of work on useful public projects, Federal and non-Federal, including work on private or public land in furtherance of the conservation of natural resources, and the provisions of the Act of February 15, 1934 (5 U. S. C. 796), as amended, relating to disability or death compensation, and benefits shall apply to those persons performing such work: *Provided*, That this section shall not apply to any case coming within the purview of the workmen's compensation law of any State, Territory, or possession, or in which the claimant has received or is entitled to receive similar benefits for injury or death.

injury or death.

For additional funds for the purpose of making rural rehabilitation loans to needy individual farmers, who are unable to obtain credit elsewhere at comparable rates for the area where such loan is proposed to be made, the Reconstruction Finance Corporation is authorized and directed to make advances to the Secretary upon his request in an aggregate amount of not to exceed [\$67,500,000] Such advances shall be made (1) with interest at not to exceed the rate of 3 per centum per annum payable semiannually; (2) upon the security of obligations acceptable to the Corporation heretofore or hereafter acquired by the Secretary pursuant to law; (3) in amounts which shall not exceed 75 per centum of the then unpaid principal amount of the obligations securing such advances;

and (4) upon such other terms and conditions, and with such maturities, as the Corporation may determine. The Secretary shall pay to the Corporation, currently as received by him, all moneys collected as payments of principal and interest on the loans made from the amounts so advanced or collected upon any obligations held by the Corporation as security for such advances, until such amounts are fully repaid. The amount of notes, debentures, bonds, or other such obligations which the Corporation is authorized and empowered to issue and to have outstanding at any one time under the provisions of law in force on the date this Act takes effect is hereby increased by an amount sufficient to carry out the provisions of this paragraph.

None of the moneys appropriated or otherwise authorized under this caption "Loans, grants, and rural rehabilitation", shall be used for (1) the purchase or leasing of land or for the carrying on of any land-purchase or land-leasing program; (2) the carrying on of any operations in collective farming, or cooperative farming, or the organization, promotion or management of homestead associations, land-leasing associations, land-purchasing associations, or cooperative land purchasing for colonies of rehabilitants or tenant purchasers, except for the liquidation as expeditiously as possible of any such projects heretofore initiated; or (3) the making of loans to any individual farmer in excess of \$2,500; or (4) the making of loans to any cooperative association; or (5) the making of loans for the payment of dues to or the purchase of any share or stock interest in any cooperative association (except for medical, dental, or hospital services) or for any expenditure other than that deemed necessary, in the discretion of the Administrator, for the production of agricultural commodities

The Secretary [of Agriculture] may expend funds administered by him as trustee under the various transfer agreements with the several State rural rehabilitation corporations only for purposes for which funds made available under this caption may be expended, and the limitations applicable to such funds shall also be applicable to the expenditure of such trust funds by the Secretary for Agriculture].

The appropriation and authorizations herein made under the heading "Loans, grants, and rural rehabilitation", shall constitute the total amount to be available for obligation under this heading during the fiscal year [1945] 1946 and shall not be supplemented by

funds from any source.

No part of the appropriation herein made under the heading "Loans, grants, and rural rehabilitation", shall be available to pay the compensation of any person appointed in accordance with the civil-service laws (Act of June 28, 1944, Public Law 367).

Loans and Grants to Farmers, Flood and Windstorm Damage-

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the balance of the appropriation of \$15,000,000 made in the Second Deficiency Appropriation Act, 1943, for 1943 flood restoration loans, is hereby also made available until June 30, 1945, to enable the Secretary of Agriculture, in such manner and upon such terms and conditions as he may prescribe, to make loans and grants to farmers whose property is destroyed or damaged by floods and windstorms (not to exceed \$1,000,000 in the case of windstorms) in 1944 and to service loans made under such appropriation in connection with the 1943 floods: Provided, That not to exceed \$3,000,000 of such amount shall be used for grants. (Act of July 12, 1943, Public Law 140, as amended by the Act of May 20, 1944, Public Law 307).

EXPLANATORY STATEMENT

NATIONAL ADVISORY COMMITTEE FOR AERONAUTICS

No additional funds are required in 1946 for construction work at the Committee's three laboratories. The existing appropriations are available until expended and it is expected that the construction program will be substantially complete by the end of fiscal year 1945.

TENNESSEE VALLEY AUTHORITY

The Tennessee Valley Authority is a corporate regional agency of the Government of the United States. It was created in 1933 to regulate the Tennessee River system for flood control, navigation, and power production; to operate the Government's plants at Muscle Shoals, Ala., for the production of fertilizer and munitions; and to cooperate with Federal, State, and local governmental agencies in the complete and unified development of the natural resources of the region. In 1946 it will have in operation

28 major power projects, of which 22 are dams and 6 are steam electric plants.

The Authority is financed from congressional appropriations, unobligated balances of prior year appropriations, and proceeds from the sale of electric power, fertilizer, munitions, and other products.

During 1946 an appropriation of \$9,850,000 and an unobligated balance of prior-year appropriations of \$9,631,000 will be required to finance programs for the development of the resources of the valley and all additions to capital plant other than direct-power facilities in major projects, transmission lines, and power and chemical inventories.

Corporate funds will be utilized to finance construction of all direct-power facilities in major projects and transmission lines, additions to power and chemical inventories, operation of multipurpose reservoirs, the direct cost of all power-system operations, the operation of all fertilizer and munitions production facilities, and the scheduled retirement of funded debt. These programs, together with reimbursable services performed for other agencies, will require \$40,422,000 of available corporate funds, estimated at \$50,438,000 for the year. The remaining \$10,016,000 will be reserved for operating contingencies and payments into the Treasury. Thus, the complete operations of the Tennessee Valley Authority for fiscal year 1946 will require a total of \$59,903,000.

Capital improvements to be made during the year total \$21,102,000, of which \$7,980,000 is for continued construction of and additions to unified river development projects; \$6,696,000 for transmission facilities; \$5,880,000 for additions to chemical plants, and \$546,000 for general

plant and equipment.

VETERANS' ADMINISTRATION

The estimate provides for major repair and reconditioning of existing veterans' facilities, including necessary extension and enlargement of related service facilities due to increased capacity or utilization of such facilities. Provision also is made for additions to existing facilities which will provide 3,945 more beds, of which 1,845 will be for general medical and surgical patients, and 2,100 will be for tuberculous patients; and for the construction of 18 new facilities with a total bed capacity of 10,155, of which 2,700 beds will be for psychotic patients, 6,155 for general medical and surgical patients, and 1,300 for tuberculous patients.

FEDERAL WORKS AGENCY

Public Roads Administration.—The estimates for the fiscal year 1946 represent the Federal share of the cost of the work on which payments will have to be made during that year. Although the estimates cover amounts for the regular programs of Federal-aid highways, Federal-aid secondary roads and the elimination of grade crossings, most all of the work to be paid for during 1946 is in connection with construction on the strategic highway network. Approximately \$14,000,000 of the estimates cover the Federal share of the costs of surveys and plans for construction of highways.

DEPARTMENT OF AGRICULTURE

The appropriation for "Forest roads and trails" under public works provides for forest highways, which are primarily important to the States and counties within or adjacent to the national forests, and which are a part of the Nation's transportation system. It also provides for forest roads and trails which are open to public travel, but are constructed primarily for the management and protection of the national forests.

The 1946 Budget includes an estimate of \$10,133,000 as compared to the 1945 appropriation of \$3,619,106 plus a carry-over of 1944 appropriations in the amount of \$619,586. The estimate for 1946 provides \$4,418,778 for the necessary maintenance work, and \$5,714,222 for construction of forest highways. No new construction work

was provided for in fiscal year 1945.

DEPARTMENT OF THE INTERIOR

The 1946 public works program of the Department includes projects of the Bonneville Power Administration, the Indian Service, and the Bureau of Reclamation.

BONNEVILLE POWER ADMINISTRATION

The Administration, created by the Bonneville Project Act of 1937, is responsible for the construction, operation, and maintenance of electric transmission lines, substations, and other facilities and structures for transmitting and marketing electric energy for sale from the Bonneville and Grand Coulee projects and, upon completion, from the Hungry Horse Dam, to existing and potential markets; for the exchange of electric energy; and for the interconnection of the Federal projects with other systems now or hereafter constructed.

Revenues of the Administration from the sale of electric energy during the fiscal year 1944 were \$20,893,364. During the fiscal year 1945, on the basis of present war conditions, it is estimated that revenues will be in excess of \$22,000,000. Estimated revenues for the fiscal year 1946 will be \$20,325,000. In line with the stated policy of Congress that the benefits of low-cost electric power shall be distributed fully in the area, the Administration is developing an intensive marketing program to offset the eventual loss of war loads and to increase the possibilities of full post-war employment in the Pacific Northwest. A successful marketing program of this nature will insure full utilization of dams and transmission facilities in which the Federal Government has invested about \$340,000,000, including \$77,000,000 for transmission facilities of the Bonneville power transmission system.

The present transmission system consists of 2,518 circuit miles of transmission lines, ranging upward to 230,000 volts, and 45 substations. Extensions and additions to be completed during fiscal year 1945 will increase the number of circuit miles to 2,725, and the number of substations to 46. On the completion of the 1946 construction program, it is estimated that 3,169 circuit miles of transmission lines will have been energized and 53 substations will be in operation. The construction program for the fiscal year 1946 is expected to require \$15,811,000. For operation and maintenance of the electric system and pertinent facilities and for the marketing of power, it is estimated that \$4,206,690 will be required.

BUREAU OF INDIAN AFFAIRS

This chapter of the Budget also contains the estimates for construction of irrigation systems and for construction and maintenance of roads on Indian reservations. Appropriations totaling \$2,319,250 are recommended for these projects; 1945 appropriations for such projects total \$1,105,690, exclusive of overtime pay. The amount recommended for roads is primarily for routine and deferred maintenance; it provides no funds for emergency repairs resulting from flood damage and other natural contingencies.

BUREAU OF RECLAMATION

The estimates for 1946 are intended to provide funds to enable the Bureau to complete the reorganization of its administrative offices, make substantial progress on its plans and investigations for post-war construction, and complete construction of several irrigation projects approved by the War Production Board. No funds are recommended for the initiation or resumption of construction of any major undertaking.

In recent years, funds for the administrative expenses of the Bureau have been included in four appropriations and under various project limitations, in addition to which there have been substantial balances available from prior Statement of proposed expenditures for purchase, maintenance, repair, and operation of passenger-carrying vehicles, for the fiscal year ending June 30, 1946, as required by 5 U.S. C. 78

EXPLANATORY STATEMENT

The 12 district banks for cooperatives and the Central Bank for Cooperatives (Kansas City, Mo.) were organized to make credit available to farmers' cooperative associations on a business basis and were chartered by the Governor of the Farm Credit Administration pursuant to the provisions of the Farm Credit Act of 1933. The banks were organized and began to function in the year 1933. Their charters provide for continued existence until dissolved by law.

The initial capital of the banks was subscribed by the Governor of the Farm Credit Administration from funds available in the revolving fund established under the Agricultural Marketing Act of 1929. Government-owned capital in the banks amounted to \$177,000,000 on June 30, 1944, and the capital stock and guaranty fund subscribed by borrowing cooperative associations amounted to

\$5,485,700 on that date. During the fiscal year 1944, due to the need for capital funds to meet increased requirements for lending purposes, the Governor of the Farm Credit Administration subscribed to additional capital stock in the banks on behalf of the United States Government in the aggregate net amount of \$5,000,000, all of which was paid in to the banks during the year.

The banks for cooperatives obtain a portion of their funds for lending purposes by discounting certain of their paper with the Federal intermediate credit banks, and by borrowing from the Federal intermediate credit banks and commercial banks. The Central Bank for Cooperatives may issue debentures but has never availed itself of the authority.

The receipts, expenditures, and means of financing these banks are shown in detail in the foregoing statement.

This statement is based on actual and estimated expenditures and receipts of Commodity Credit Corporation and does not include obligations for new or partially completed programs or obligations for commodity loans such as cotton and wheat made by private banks under guarantee of the Corporation.
 Includes matured obligations of \$7,000 for the redemption of which funds have been deposited with the Treasurer of the United States as fiscal agent.

EXPLANATORY STATEMENT

The Commodity Credit Corporation, created under the laws of the State of Delaware pursuant to Executive Order 6340 dated October 16, 1933, was organized primarily to make loans to producers to finance the carrying and orderly marketing of agricultural commodities. Its functions as an agency of the United States have been continued from time to time and pursuant to Public Law 240 Seventy-eighth Congress, these functions were continued to June 30, 1945, or such earlier date as may be determined by the President of the United States. The Corporation was transferred to the Department of Agriculture on July 1, 1939, by Reorganization Plan 1 and was made a part of the War Food Administration by Executive Order

9334 of April 19, 1943.

The Agricultural Adjustment Act of 1938, as amended, authorized and directed the Corporation to make loans available at 85 percent of the parity price for the commodities as of the beginning of the marketing year, on the basic commodities cotton, corn, wheat, rice, tobacco, and peanuts up to and including the 1946 crops, provided that producers had not disar proved marketing quotas for such commodities. The act of October 2, 1942, Public Law 729. Seventy-seventh Congress, provided for loans to be made available on these commodities at 90 percent of the parity price at the beginning of the marketing year, until 2 years after the 1st day of January, following a declaration of the termination of the present war, except that the President may fix the loan rate for any such commodity at not less than 85 percent of the parity price if he determines that such loan rate is necessary to prevent an increase in the cost of feed for livestock and poultry and to aid in the effective prosecution of the war. The act of July 1, 1941, Public Law 147, Seventy-seventh Congress, as amended by the act of October 2, 1942, also provides for loans, purchases, or other operations to support the price of those nonbasic commodities for which expansion of production is necessary at not less than 90

percent of the parity or comparable prices therefor during the same period, and also states that it is the policy of the Congress that lending and purchasing operations should be conducted in such manner as to bring the price and income of producers of other nonbasic commodities to a fair parity relationship with other commodities, to the extent that funds are available for such purpose. The act of October 3, 1944, Public Law 457, Seventy-eighth Congress, provides for loans on 1944-crop cotton at the rate of 95 percent of parity. The continued large volume of business of Commodity Credit Corporation arises partly from higher loan rates and purchase prices required by legislation, and partly from activities designed to support the war effort. These include price supports on crops for which expansion of products has been requested, temporary financing of purchases of other essential agricultural commodities from domestic, Canadian, or (in the case of sugar) Caribbean sources.

The Corporation has a capital stock of \$100,000,000, all of which is held by the United States, and it is authorized, with the approval of the Secretary of the Treasury, to have outstanding at any one time obligations guaranteed by the United States in an aggregate amount of \$3,000,000,000. The Secretary of the Treasury is required to make an appraisal of all assets and liabilities of the Corporation as of June 30 in each year for the purpose of determining its net worth. If the net worth of the Corporation is determined to be less than \$100,-000,000, the Secretary of the Treasury, subject to appropriation of funds therefor, is required to restore such capital impairment. If the net.worth exceeds \$100,-000,000, such excess is required to be deposited by the Corporation in the Treasury of the United States as "Miscellaneous receipts."

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Federal Crop Insurance Corporation was organized under the act of February 16, 1938, for the purpose of promoting the national welfare by alleviating the economic distress caused by wheat crop failures, due to drought and other causes, by maintaining the purchasing power of farmers.

Public Law 118, Seventy-seventh Congress, approved June 21, 1941, authorized the Federal Crop Insurance Corporation to insure producers of cotton, commencing with the cotton crop planted for harvest in 1942. Also, the act authorized the Corporation to accept in payment of premiums, notes to be payable in the commodity insured, or the cash equivalent, and to purchase for insurance reserve purposes the quantity of the commodity represented by such notes.

The Federal Crop Insurance Act provided that the Corporation to insurance act provided that the Corporation to insurance Act provided the Corporation to insurance Act provided the Corporation to insurance Act provided the Corporation to insurance Act provided the Corporation to insurance Act provided the Corporation to insurance Act provided the Corporation to insurance Act provided the Corporation to insuranc

The Federal Crop Insurance Act provided that the Corporation should have an authorized capital stock of \$100,000,000 to be subscribed by the United States of America. As of June 30, 1944, \$40,000,000 had been made available to the Secretary of the Treasury for purchase of capital stock of the Corporation, and this amount had been requisitioned by the Corporation.

The Department of Agriculture Appropriation Act, 1944, Public Law 129, Seventy-eighth Congress, under the item "Federal Crop Insurance Act," provided an appropriation of \$3,500,000 and stated in part that: "* * no part of this appropriation shall be used for or in connection with the insurance of wheat and cotton crops planted subsequent to July 31, 1943, or for any other purpose except in connection with the liquidation of insurance contracts on wheat and cotton crops planted prior to July 31, 1943."

This provision was interpreted to mean that insurance on both 1943 cotton and wheat crops would remain in full force and effect; that existing 3-year wheat contracts could not cover crops for harvest in 1944 or 1945; that new wheat applications already signed for the 3-year period 1944–46 could not go into effect even though they had been accepted; and that cotton crop insurance could not be offered for 1944.

The Department of Agriculture Appropriation Act, 1945, Public Law 367, Seventy-eighth Congress (58 Stat. 451) under the item "Federal Crop Insurance Act" provided a reappropriation of \$350,000 from the fiscal year 1944 unobligated balance for the continued liquidation of the program.

The estimates of receipts and expenditures in the foregoing statement for the fiscal years 1945 and 1946 are limited to those involved in the liquidation of insurance relating to the 1943 and prior crops.

Public Law 551, approved December 23, 1944, amended the Federal Crop Insurance Act to authorize the insurance of wheat, cotton, and flax for 1945 and trial insurance on corn and tobacco for 1945 in not more than 20 representative counties for each. This law further provides for insuring other crops on a trial basis with the limitation that not more than three additional crops may be added in any one succeeding year. This act also reappropriated an additional \$3,000,000 for the fiscal year 1945 from the unexpended balances of the 1943 and 1944 appropriations. Estimates of receipts and expenditures for the operations authorized by Public Law 551 are not available at this time and are not included in the 1945 and 1946 estimates

in the foregoing statement.

EXPLANATORY STATEMENT

The Federal Farm Mortgage Corporation was created under the act approved January 31, 1934 (12 U. S. C. 1016-1020 (h)), to aid in financing the lending operations of the Federal land banks and the Land Bank Commissioner

The Corporation, which is wholly owned by the United States, had paid-in capital of \$100,000,000 as of June 30, 1944, a repayment to the Treasury in the amount of \$100,000,000 having been made in May 1941. This retirement of stock was made in accordance with the President's Budget Message of January 3, 1940, and the provisions of an act approved June 25, 1940, and the proceeds are being held in the Treasury of the United States as a fund available for additional capital subscriptions, if necessary.

The Corporation is authorized to issue and have outstanding at any one time a total of not more than

\$2,000,000,000 of bonds, which are fully and unconditionally guaranteed by the United States Government. During the fiscal year ended June 30, 1944, the Corporation called for redemption of all its bonds held by the public, amounting to \$931,723,600. Redemptions of such bonds were effected to the extent of \$888,810,200, and as of June 30, 1944, funds were on deposit with the Treasurer of the United States as fiscal agent for the redemption of the remaining matured bonds amounting to \$42,913,400. To partially finance this retirement \$375,000,000 of 1-percent bonds were issued to the United States Treasury during the year, of which \$365,000,000 remained outstanding on June 30, 1944.

The receipts, expenditures, and means of financing the activities of the Corporation are shown in detail in the

foregoing statement.

EXPLANATORY STATEMENT

The Agricultural Credits Act of 1923 (title II of the Federal Farm Loan Act) provided for the establishment of 12 Federal intermediate credit banks. The 12 banks were chartered by the Federal Farm Loan Board during

1923, their term of existence being unlimited.

The original capital stock of the Federal intermediate credit banks in the amount of \$5,000,000 each was subscribed and paid for by the Secretary of the Treasury on behalf of the United States. By an act approved January 31, 1934, an additional sum of \$40,000,000 was provided, to be allocated to the capital stock and paid-in surplus of any banks. Late in 1940, in accordance with the Federal budgetary program for the fiscal year 1941, the banks returned the \$40,000,000 to the revolving fund in the Treasury, the proceeds of such repayments being held as a fund available for resubscription, if necessary. Thus, on June 30, 1944, the total capital in the banks amounted to \$60,000,000.

The principal function of the Federal intermediate credit banks is to supply funds by way of discounts and loans to lending institutions for short- and intermediate-

term agricultural loans.

The authority for supervision of the various Federal intermediate credit banks was transferred to the Farm

Credit Administration on May 27, 1933, in conformity with the provisions of Executive Order 6084 of March 27, 1933.

The Federal intermediate credit banks have authority, subject to the approval of the Farm Credit Administration, to borrow money from any source and to issue and sell collateral trust debentures or other similar obligations subject to the general limitation that the aggregate amount of such outstanding debentures and similar obligations issued individually by any bank, together with the amount of consolidated debentures issued for its benefit and account, shall not exceed 10 times the surplus and paid-in capital of such bank. As of June 30, 1944, the banks reported total debentures outstanding aggregating \$285,-040,000.

The Federal intermediate credit banks pay annually to the United States Treasury a franchise tax equivalent to 25 percent of the amount of earnings remaining after absorption of losses and provision for estimated losses, the elimination of any impairment of paid-in capital, and the creation of necessary reserves.

The receipts, expenditures, and means of financing the Federal intermediate credit banks are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

Title I of the Farm Credit Act of 1933 authorized and directed the Governor of the Farm Credit Administration to organize and charter 12 production credit corporations, 1 to be established in each city in which a Federal land bank was located.

Paid-in capital of the production credit corporations is furnished by the United States Government from a revolving fund of \$120,000,000 appropriated by Congress. As of June 30, 1944, paid-in capital of the corporations totaled \$115,000,000, a repayment of \$5,000,000 having been made to the revolving fund in April 1944.

The principal function of the production-credit corporations is to organize, provide capital for, and supervise local production-credit associations, which make short-term agricultural loans to their members. As of June 30, 1944, the 12 corporations were supervising the operations of 522 production-credit associations, serving farmers in every rural county in the United States, and owned about 69 percent of the total outstanding stock of the associations.

The receipts, expenditures, and means of financing these corporations are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

By authority granted in section 201 (e) of the Emergency Relief and Construction Act of 1932, approved July 21, 1932, the Reconstruction Finance Corporation created 12 regional agricultural credit corporations to make short-term loans direct to farmers and stockmen in the United States. Effective May 27, 1933, Executive Order 6084 transferred supervision of the regional agricultural credit corporations from the Reconstruction Finance Corporation to the Farm Credit Administration.

The stock of these corporations was subscribed and paid for by the Reconstruction Finance Corporation out of the unexpended balance of the amounts allocated and made available to the Secretary of Agriculture under section 2 of the Reconstruction Finance Corporation acts. All of the stock is now held by the Secretary of the Treasury for and on behalf of the United States. By April 30, 1938, the corporations had returned \$39,500,000 of their original capital to a revolving fund set up under section 84 of the Farm Credit Act of 1933. In February 1943 this sum was resubscribed and paid in to the Regional Agricultural Credit Corporation of Washington, D. C., to provide funds to meet the needs of borrowers under the war food production program (discussed in a subsequent paragraph), increasing the total capital of the corporations to \$44,500,000. This amount remained outstanding on June 30, 1944, but was reduced to \$5,000,000 in December 1944 by the retirement of capital in the amount of \$39,500,000

which was returned to said revolving fund under the control of the Secretary of the Treasury.

Since May 1, 1934, the regional agricultural credit corporations have been in process of orderly liquidation, the short-term credit needs of agriculture being provided for by other permanent organizations administered by the Farm Credit Administration. In accordance with authority granted by the Farm Credit Act of 1937, the Farm Credit Administration has effected the consolidation or merger of various of the corporations so that on June 30, 1944, only one corporation remained in existence, the Regional Agricultural Credit Corporation of Washington, D. C., located at Kansas City, Mo., with a branch office at Wenatchee, Wash.

The operations of the Regional Agricultural Credit Corporation of Washington, D. C., are of three distinct types:
(1) The orderly liquidation of its remaining regular loans,
(2) active lending operations of its Wenatchee branch where a special program was established in 1941 for the rehabilitation of the area as an effective and prosperous fruit-growing region, (3) the orderly liquidation of loans made under the original war food production program and the making and collection of loans for the production of specified crops and livestock in certain restricted areas. Active lending operations under the war food production program were discontinued after June 30, 1943, with the enactment of restrictions on the opera-

tion of this program in section 2 of the Department of Agriculture Appropriation Act, 1944 (57 Stat. 428). Since that date no loans and advances have been made except for commitments already outstanding and further loans and advances in aid of collection of the outstanding loans and advances. Pursuant to section 2 of this act, the Secretary of Agriculture, beginning in October 1943 and from time to time thereafter, upon recommendation of the War Food Administrator, has authorized and di-

rected the Regional Agricultural Credit Corporation of Washington, D. C., to make loans in certain regions in 23 States to finance the production of crops and livestock that would otherwise not be produced. Such loans are designated as restricted area loans, 1,146 totaling \$3,112,761 having been made through June 30, 1944.

The receipts, expenditures, and means of financing the regional agricultural credit corporations are shown in

detail in the foregoing statement.
